

Delta Dental, more affordable than ever

Total Choice PPO — the best of Delta Dental of Massachusetts with new benefits and a lower cost for you and your employees.

Delta Dental of Massachusetts has a new plan specifically created to deliver great value to Massachusetts-based businesses and their in-state employees.

Total Choice PPO gives you the best of Delta Dental – service, choice and value – with upgrades in benefits, such as coverage for white fillings and implants.

And this is combined with the state's largest PPO network, which can deliver significant premium savings for you and lower out-of-pocket costs for your employees when they see participating dentists.

The result is an even more affordable plan from Delta Dental of Massachusetts.

Total Choice of Providers

- Total Choice PPO offers the largest PPO network in Massachusetts with more than 4,000 providers. That's more than 80 percent of all dentists in the state, so chances are your employees' dentists are in our network.
- All providers are in one PPO network, so members always pay the lowest cost when they choose a network provider.
- Your employees can also choose to see dentists outside our extensive network. They will, however, pay more for out-of-network care.

The Benefits Your Employees Deserve

- In-network preventive services are covered at 100 percent.
- The plan also includes coverage for diagnostic and restorative services, such as fillings, crowns and root canals.
- Plan also includes Rollover Maximum, which allows employees to save unused benefit dollars from year to year.

- And every time a member gets covered services from a network provider, they only pay Delta Dental's discounted price we negotiated with our dentists.

The Savings You Need

- Our new network delivers significant premium savings by having all providers in one lower-cost network.
- Your employees' benefit dollars go further because we have negotiated great discounts with our providers and your employees get the Delta Dental Discount every time they get covered care in the network.

The Sum Total?

Total Choice PPO offers the reliability, benefits and network your employees expect at a cost that fits your business's bottom line. If you haven't considered a Delta Dental plan before, now is the time to do it for both your business and your employees.
